

Don't Talk

Jon B.

Excuse me love, can I come dance with you?
Uh, yeah, 2000, Jon B ish uh yeah
All you people in the club feelin' it
Uh yeah, come on baby now Baby I had to stop for a second on the balcony
Scopin' you down, you're lookin' fly to me
All dressed up, and buying your own drinks
And that ain't right Not that you can't handle it on your own
But you're too damn fly to drink all alone
Can I come bubble with you?
To you, I'mma make a toast, come on Don't talk, baby just move with me, take a sip
Kind of got you feelin' fizzy
It's alright, so rock with me
If it's alright with you, oh baby
Don't talk, baby just move with me, take a sip
Kind of got you feelin' fizzy
It's alright, so rock with me
If it's alright with you, oh baby You got me high dancin' close with the Kana perfume
Smellin' all good, it's gettin' hot in the room
All pressed on you, and I know you feel it too
And that's alright Pardon me, I'mma back up and be a gentleman
And if it's really real then you can tell me when
And that's when she pulled me close and said
"Do it again", come on Don't talk, baby just move with me, take a sip
Kind of got you feelin' fizzy
It's alright, so rock with me
If it's alright with you, oh baby
Don't talk, baby just move with me, take a sip
Kind of got you feelin' fizzy
It's alright, so rock with me
If it's alright with you, oh baby Uh, come on baby now, uh
Uh, come on baby now, uh
Uh, come on baby now Girl it's alright to relax your mind
'Cause you came out to enjoy yourself
It's on you and nobody else
Come on and bubble an' bubble with me, bay Don't talk, baby just move with me, take a sip
Kind of got you feelin' fizzy
It's alright, so rock with me
If it's alright with you, oh baby
