# Creep On Me (feat. French Montana & DJ Snake)

## GASHI

My heart goin' up and down when it's you I see
All these girls so salty cause y'all so sweet
You ain't the one that I want, you the one I need
Tellin' your friends that you really not in love with meYou can keep on ranting, but I know
You like that, why you actin' like that?
You can keep fronting, but I know
You like that, why you actin' like that?Because you creep on me when you're alone
And you work like you can't fall in love
Every single night you call my phone
Always asking if nobody's home
Come around like the summer time
You bring bright light into my life
When I'm wit' you I feel alright
Come around like the summer time
You bring bright light into my life
When I'm wit' you I feel alright
Pay attention 'round me you said
Pay attention 'round me you saidTell 'em to creep on me
Now I know I, now I know I
Should you creep on me, now I know I
Creep in the morning, creep in the evening
Creep in the night time (freak)
She's been freak in the morning, freak in the evening
Freak in the night time (freak)
Money can't buy you, love
But I know where to find you, love
Askers not the Poconos, not the guy wit' the open toes
Talk about Monday, Tuesday, Wednesday, Thursday
Friday, Saturday
Talk about South Greece, South Beach, Maldives
Back to New York and LA
Because you creep on me when you're alone
And you work like you can't fall in love
Every single night you call my phone
Always asking if nobody's home
Come around like the summer time
You bring bright light into my life
When I wit' you I feel alright
Come around like the summer time
You bring bright light into my life

When I wit' you I feel alrightPay attention 'round me you said
Pay attention 'round me you said
