

Pretty Eyes

Alex Goot

Pretty eyes, staring back at me so blue and wide,
The colors of the summer sky, the colors of the world,
If love is blind, why do i see you so clearly now?
Perfect vision of our love somehow,
You take over my mind,
Oh,
Look up into the galaxy tonight,
The stars illuminate the love we make,
(Love we make)'Cause you and your pretty eyes,
you keep me alive, keep me alive,
(Oh, you)
Pretty eyes, you're the one that keeps up all night,
I know, no one else could make me feel this way,
I want to look up into the milky way tonight,
The sky illuminates the love we make,
The love we make so bright,'Cause you and your pretty eyes,
you keep me alive, keep me alive,As the moon shines its light on you,
Your pretty eyes they glow,
Tell me that you'll stay the night,
Just stay a while,Oh, whoa,
You and your pretty eyes,
You keep me alive, keep me alive,'Cause you and your pretty eyes,
you keep me alive, keep me alive
