

# You Found Me (feat. Belly)

DVBBS

Baby, now please don't let me go  
Look I'm frozen, I rose from the ashes  
I've woken the casket, I'm hopin' I open the passage  
I wrote when I smoked it and passed it  
I'm focused, no longer keep dope in the mattress, no  
I'm overly passionate  
On my own but I know that I asked for this  
I've been told, bitch, I know I'm a masochist  
If I ain't on the low, I'm with savages  
Jump off, jump off, geronimo  
I know you know the kinda hoes  
That broke but she rock designer clothes  
Take drugs like eeny miney moe  
Big league, big league  
Money long, pullin' off 63's  
16 on my own, hardcore  
Gucci link make my chest freeze, I'm so cold You found me frozen, I'm so cold  
Praying loud, save me got no gold  
Baby now please don't let me go  
(oh yeah)  
And I got a lot of friends that turned to stone  
Like you got inside of me  
No, baby, now please don't let me go  
Exotic cars, tops off like Mardi Gras  
My weed louder than the cologne  
Million cash in the floor board  
I'm the warlord, uh  
I took her to Bora Bora on my 4 doors  
Bitches all in the corridor  
For the hoe match the Audemaur  
Doin' yoga with a young Kammar, hold up  
I'm all for it, throw it back  
All fours, it ain't love, don't fall for it  
It ain't love, don't fall for it Bitch, please just leave  
Money long, pullin' off 63's  
16 on my own, hardcore  
Gucci link make my chest freeze, I'm so cold You found me frozen, I'm so cold  
Praying loud, save me got no gold  
Baby now please don't let me go  
(oh yeah)  
And I got a lot of friends that turned to stone  
Like you got inside of me

No, baby, now please don't let me go  
You found me frozen, I'm so cold  
Praying loud, save me got no gold  
Baby now please don't let me go  
(oh yeah)  
And I got a lot of friends that turned to stone  
Like you got inside of me  
No, baby, now please don't let me go  
(oh yeah)
