

It Is What It Is

J Moss

i can't understand it. i can't even explain it.
how this love is so, so wonderful.
i thank you for all your troubles now,
and every scar that you wear that's for my name.
what you've done for my soul.
i'm complete now, you make me whole. some things ain't for understanding.
some things ain't for comprehending.
it is what it is. it is
some things ain't for some of us to know.
somethings ain't up for debating.
something's ain't for comprehending.
it is what it is. it is. theologians can't show me. how you keep loving me.
how it goes and goes, for so long.
even when i let you down.
you walk over to me, and put your arms around me,
thank you; for saving my life,
protecting me so, but how?
some things ain't for understanding.
some things ain't for comprehending.
it is what it is. it is.
some things ain't for some of us to know.
some things ain't up for debating.
some things ain't for comprehending.
it is what it is. it is.
i don't know, how you fixed my heart.
i don't know, how you see tomorrow.
i don't know how you do it oh i,
i don't know how you put the sun in the sky.
i don't know, i don't,
and i don't care, i don't,
as long as you do the things you do.
i will keep trusting in you.
some things ain't for understanding.
some things ain't for comprehending.
it is what it is. it is.
some things ain't for some of us to know.
some things ain't up for debating.
some things ain't for comprehending.
it is what it is. it is.
some things ain't for understanding.
some things ain't for comprehending.
it is what it is. it is.

some things ain't for some of us to know.
some things ain't up for debating.
