

Call Me

NAV & Metro Boomin

Metro Boomin want some more, nigga They taught me, "Don't forget where you came from"

I regret what I came from

In my old hood moving like I got a vest on me

I'ma keep on winning, you should place your bets on me

I could open up a bakery, baguettes on me

Walking through the mall, I got a check on me

Designer look the best on me

I got lots of pressure, lotsa stress on me

Independent, I got people that depend on me

Knew you was a fake, you can't pretend on me

What I used to spend on you, I spend on me

Somehow all these problems keep on landing on me

I went on a mission with a bad bitch

3AM, I'm getting Backwoods like I'm average

All this money turned me to a savage

My life was better when I didn't have shit

Do you know how it feel to feel alone?

Bought myself a house, to feel like I ain't home

Driving by myself, ain't got nowhere to go

I just took two 30s, now I'm in my zone

Are you really here for me, I don't know

Are you really here for me, I don't know

Are you really here for me, I don't know

Are you really here for me, I don't know Me and Metro Boomin' want some more, yeah

All this money make me bored, yeah

But there's lots of drugs to explore, yeah

I'm a boss, yeah, I could employ ya

Couldn't buy one, now I got four, yeah

Used to pray feds don't kick down the door, yeah

Running back the sack the trap feel like a sport, yeah

Yeah I'm famous but I miss my life before, yeah

Finally got some money, can't go to the store

I lose every girl I love when I'm on tour

My momma calling me and I ignore her

Running from my problems 'til my feet get sore

Do you know how it feel to feel alone?

Bought myself a house, to feel like I ain't home

Driving by myself, ain't got nowhere to go

I just took two 30s, now I'm in my zone

Are you really here for me, I don't know

Are you really here for me, I don't know

Are you really here for me, I don't know

Are you really here for me, I don't know I got what you need, you feeling lonely?

I need you to hold me
I hope you mean everything that you told me
I'll try to come back to you, girl, I'm sorry
If you miss me, just call me
You try to diss me cause you salty
Did this on my own, it's on me
I just wish that you would call me Call me
I just wish that you would call me up
Wish that you would call me
I just wish that you would call me up
Wish that you would call me
I just wish that you would call me up
Wish that you would call me
I just wish that you would call me up
Me up
Just wish that you would call me up
Me up, me up
I just wish that you would call me up
Me up, me up
I just wish that you would call me up
Me up
