

# Devil's Got a Hold (feat. Slaughterhouse)

Travis Barker

I toss, I turn, can't sleep at night  
I punch, I kick, I claw, I bite  
It seems that I can't win this fight  
Hands together if you there, tell him leave me alone Devil's got a hold on me  
Devil's got a hold on me  
Devil's got a hold on me  
(Devil's got a hold on me) Pen in my right hand, beat on repeat  
He hates when I'm writin' so the thing on my nightstand  
Start ringin' and lightin' up, vibratin' and all that  
I don't wanna sell no wall crack, I just wanna go perform at The biggest place in the world  
'cause I'm dope, like them four packs  
Sittin' in writes on my window sill, makin' sure everythin' stays on chill  
Right shoulder wearin' all white sayin', "Joe chill"  
Left shoulder wearin' red sayin' "Pay yo' bills"  
So that raw metaphor that I, thought of before  
I don't remember no more  
'Cause I just ran out the door to meet a fiend by the store  
And I heard, "So you off tourin'?" I turned and seen this whore That I used to fiend for, that ain't  
never let me score  
Lookin' at me like I'm somethin' she ain't never ever saw  
So a one-hour run somehow turned into 24  
Wifey callin', I hit ignore, my priorities is poor  
Listen Lord I toss, I turn, can't sleep at night  
I punch, I kick, I claw, I bite  
It seems that I can't win this fight  
Hands together if you there, tell him leave me alone Devil's got a hold on me  
Devil's got a hold on me  
Devil's got a hold on me  
(Devil's got a hold on me)  
Nickel, c'mon  
My life is like a box of chocolates  
I work hard for it, plus I am awkward, uh  
I am a addict's son, plus I'm a addict, son I am a AK addict, uh, Travis drums  
I am the lead dump factor  
That's why I got a edge on rappers  
I am redrum backwards I'll see your crew and get deep  
So you can respect it, jump me  
I signed a deal with my maker  
Satan's my record company I got a K cannon, I buy chinchillas  
My bitches rockin' Luci-furs after they Satan-in  
Now can you say tannin'? Better yet say Dannon  
Your coupe look just like yogurt, I fly I ain't landin' I am the bank bandit, I got a buyin' problem

I goes in then walk out with all the money but I ain't rob 'em I toss, I turn, can't sleep at night  
 I punch, I kick, I claw, I bite  
 It seems that I can't win this fight  
 Hands together if you there, tell him leave me alone Devil's got a hold on me  
 Devil's got a hold on me  
 Devil's got a hold on me  
 (Devil's got a hold on me) I'm talkin', I'm talkin' he talks, I listen, GPS on my position  
 Just livin', just hangin' out with the opposition  
 Can't take the heat get the fuck out the kitchen  
 Stupid y'all, think I'm just spittin'  
 I belong in prison, crazy by my own admission on a mission To grab a podium, audience, let me  
 tell the public  
 That I'm self-destructive, I ain't lookin' for no help, fuck it  
 Lookin' for a way to get high, I'm still alive  
 Six million ways to die, still a few more left to try is Red Bull  
 Pills is hittin', still a slight medic'  
 We just goin' back and forth, feelin' like tennis  
 Standin' underneath rain, wanna be sane  
 Friends and family wantin' me to change  
 But it's too late 'cause my feet is gettin' comfy on the flames Check it  
 I don't wanna be another nigga with no gold  
 (Nah)  
 No fame, success nigga no hope  
 (Nah) Sleep on the corner in SoHo  
 Like up is down, there's no dough Uh, fuck it, they ain't put me under yet  
 And think what you wish, I ain't got one regret I toss, I turn, can't sleep at night  
 I punch, I kick, I claw, I bite  
 It seems that I can't win this fight  
 Hands together if you there, tell him leave me alone Devil's got a hold on me  
 Devil's got a hold on me  
 Devil's got a hold on me  
 (Devil's got a hold on me) My automobile is not a Bentley  
 He knows that my pocket's empty  
 The devil's so consequently, he gotta tempt me  
 Standin' on the block you should not offend me  
 I rock a semi, like Prada, Fendi I don't think the spirit of God is in me  
 Just wicked whispers of scriptures Satan is narratin'  
 I heard you got a safe in your crib so I'm there waitin'  
 Nobody's safe in your crib, when I'm on that staircase  
 I'm bare-faced Possessed by what you possess, I'm hell raisin'  
 And I just left somebody's father a quadriplegic  
 Told him not to move or get shot to Egypt, he did not believe it  
 He's losin' blood and I'm cold-blooded like I'm anemic  
 I need a doctor, I'm psychotic, maybe I should watch "The Secret" Or see a priest and I might  
 just chill  
 Or will I blow him out of the confession booth  
 Like on 'Righteous Kill'  
 Kill, kill, kill, God when I write this will I hope I seek some forgiveness 'cause  
 (My life was real) Devil's got a hold on me

D-d-devil's got a hold on me  
Devil's got a hold on me  
Devil's got a hold on meD-d-d-d-devil's got a hold of me  
Devil's got a hold of me
